SECTION 3: HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

Keep unnecessary people away and upwind of fire. Toxic gases may be emitted when heated to decomposition. Some of these materials may burn but none of them ignites readily. Follow Section 5 for fire fighting measures and Section 6 for accidental release measures. In case of contact with material, immediately flush eyes with running water for at least 15 minutes. See **Emergency Response Guide (DOT) #31**.

POTENTIAL HEALTH EFFECTS: Routes of Entry Eye, Skin, Inhalation, Ingestion

A. ACUTE EXPOSURE EFFECTS (NOTE: Pertains to Finished Product)

Eye Contact: May cause irritation.
Skin Contact: May cause irritation.
Inhalation: Normally no problem, but inhalation of mist could cause respiratory irritation.
Ingestion: May cause irritation of the mucous membranes or digestive tract..

B. CHRONIC HEALTH EFFECTS (NOTE: Pertains to each ingredient listed in Section 2 per 29 CFR Sect. 1910.1200)

A computerized literature search of national databases did not yield any chronic effects associated with these materials. (These databases are researched every six months for any new toxic information.)

Carcinogenicity Listing NTP No. IARC No. OSHA No.

SECTION 4: FIRST AID MEASURES

Eyes: Immediately flush with plenty of running water for at least 15 minutes. Obtain medical attention.
Skin: Flush affected areas promptly with water for 15 minutes. Remove contaminated clothing. In case of continued irritation consult physician.
Inhalation: For over-exposure, remove to fresh air.
Ingestion: Obtain immediate medical attention.

SECTION 5: FIRE FIGHTING MEASURES

Flash Point: 200° F TCC
Extinguishing Media: Foam, Dry Chemical, CO₂. Water may be ineffective but should be used to keep fire-exposed containers cool.
Special Fire Fighting Procedures: Containers should be kept cool with water spray. To avoid inhalation of toxic fumes, wear MSHA/NIOSH-approved self-contained breathing apparatus.
Unusual Fire & Explosion Hazards: When heated to decomposition, emission of toxic fumes is possible.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Spill or Leak Procedures NOTE: Review Sections 5 and 8 before proceeding with clean up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean up. Dike spill. Non-usable free liquid and/or contaminated water may be discharge to sewer with copious amounts of water.

SECTION 7: HANDLING AND STORAGE

Avoid eye and skin contact, and store in well-ventilated area. Keep container tightly closed. Do not store with incompatible materials (see Section 10). Do not store or consume food, drink or tobacco in area where they may become contaminated with this material. Avoid ignition sources and ground product transfer system to prevent fire or explosion risk from static accumulation and discharge.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection: None needed with working mixtures and normal room ventilation (10 changes of air per hour).
Ventilation: Room ventilation is sufficient. Avoid use of product in unventilated areas. Always control airborne levels below the exposure guidelines when reported in Section 2 (use 50% of the TLV).
Skin and Eye Protection: Splash protection required for eyes, e.g., eye glasses with side shields or goggles. For skin protection use chemical resistant gloves and aprons. Disposable coveralls are optional, and discard after use.
