FLAMMABLE PROPERTIES

Flash Point: > 445° F Flash Point Method: PMCC Auto ignition: N.E.
LEL: N.E. UEL: N.E.

Extinguishing Media: Water fog or fine spray. Carbon dioxide, foam, or dry chemical powder.

Alcohol resistant foams (ACT type) are preferred if available.

Special Fire-Fighting Procedures: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes. Fire or excessive heat may produce hazardous decomposition products. Water may be ineffective but can be used to cool container. Do not use direct water stream as it may spread fire. Violent stream generation may occur upon direct application of water stream to hot liquids. Spills of these organic liquids on hot fibrous insulations may lead to lowering of the auto-ignition temperatures possibly resulting in spontaneous combustion.

Unusual Fire And Explosion Hazards: Dense smoke

Combustion Products: Carbon dioxide, carbon monoxide

6. ACCIDENTAL RELEASE MEASURES

Steps To Be Taken In Case Material Is Spilled Or Released: Review fire and explosion hazards and safety precautions before proceeding with cleanup. Use appropriate personal protective equipment. Avoid contact with skin and eyes. Stop the spillage. Dike the spill. Prevent liquid from entering sewers, waterways or low areas. Absorb spillage in inert material. Soak up with sawdust, sand, or other absorbent material. Remove non-usable solid material and/or contaminated soil for disposal in an approved and permitted landfill. Discharge to sewer requires approval of permitting authority.
